

## Think?

• we think python is easy to create hashtag generator because it have many libraries.

**Feels** 

 In this project we are going to create hashtags to social medias.

Says

HashTag Generator  Everyone has in team should learn about hashtag generator and What is the use of hashtags in social medias.

Do?

- we import the modules which used to create hashtag generating.
- Do logical program and get output.

Pain

More challenging

Gain

**Get Output**
